

You live in the inner or lower layer of Earth's atmosphere, the *troposphere*.

The *stratosphere* is the second layer of the atmosphere and contains the ozone layer.

The *mesosphere* is the middle layer of the atmosphere.

The outermost layer of Earth's atmosphere is the *thermosphere*.

Thermosphere is divided in two layers. The lower layer is called the *ionosphere*.

The exosphere is the outer portion to the thermosphere.
